TELECOMS

COMPANY PROFILE

FEPHI

TELECOMS

THE COMPANY

Fephi Telecoms is a 100% Black African Owned Company. Company is based in Durban, it was founded in 2020 after the COVID 19 pandemic. After seeing the need and importance of being able to work from home, the Fourth Industrial Revolution represents a fundamental change in the way we live, work and relate to one another. It is a new chapter in human development, enabled by extraordinary technology advances commensurate with those of the first, second and third industrial revolutions.

These advances are merging the physical, digital and biological worlds in ways that create both huge promise and potential peril. The speed, breadth and depth of this revolution is forcing us to rethink how we do things.

Fephi Telecoms is committed to providing a personalised service to all of its valued clients. Fephi Telecoms focuses on projects in the Wireless Internet, Fibre Deployment, ICT/Telecommunications/Networks. We interact with various contractors operating in the arena.

We pride ourselves in our ethical, professional and accountable approach to all aspects of our business.

OUR MISSION

To continuously meet the expectations of our customers, employees and stakeholders by providing quality, timely and cost effective value-added solutions from world-class vendors, through excellent service delivered by highly trained and motivated people.

OUR VISION

We want to establish ourselves as the best choice in Computing and Information Technology Services, Consultancy and Development by offering the full spectrum of Services.

OUR VALUES

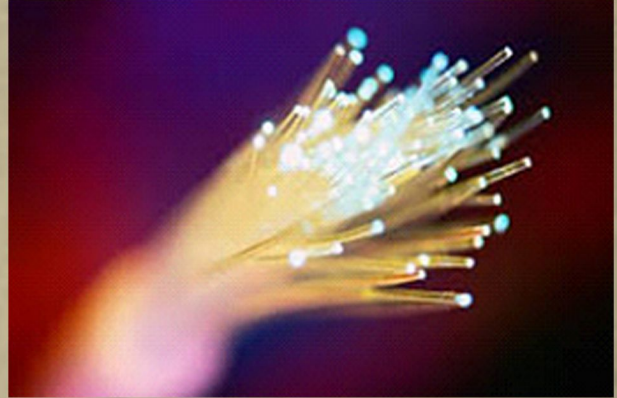

- Desire for Excellence
- Trust and confidence build-up
- Innovation
- Transparency
- Teamwork
- Integrity
- Commitment

PRINCIPLES

Our focused, sound and innovative approach is derived from the experience of our team members. As a result of their combined practical business experience with strong technology delivery capabilities, we are able to comprehend the client's business requirements, propose IT and creative strategies in line with the vision of the business and execute the business plan by building or implementing high quality scalable business solutions through the use of latest cutting edge Technologies.

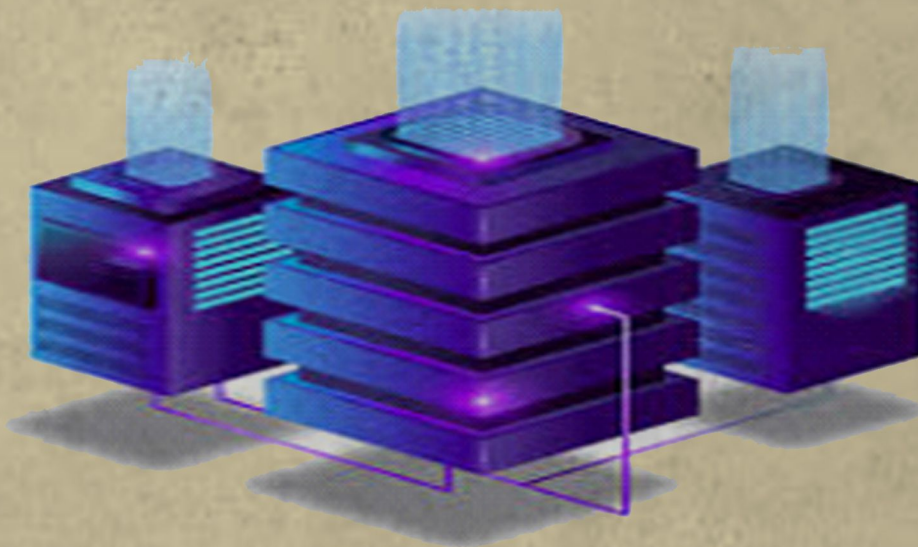

We provide a full suite of Professional IT Services, encompassing all phases of the IT Infrastructure Project – the planning – the assessment and selection – including all phases of implementation and integration. In projects for up gradation we take care of optimization and support. All our Products and Services can be customized to meet diverse client requirements. We deliver efficiently and punctually thus enhancing client's value and their IT investment return.
